

SCHOOL MANAGEMENT SYSTEM

STUDENT RECORDS MANAGEMENT

📁 SEQUENTIAL STORAGE

- Stores records one after another.
- Simple but searching may require checking each record.

📊 Arrays

- Records are stored in indexed positions.
- Easy access using index.
- Best for fixed-size data.

📁 ORGANIZING BY CLASS & SECTION

🌳 HIERARCHICAL STORAGE

- Data is arranged in parent-child relationships
- Represents real-world school structure.

- Data is arranged in parent-child relationships
